

SIGS (Special Interest Groups)

When you plan to attend a SIG meeting and have specific questions or problems you would like someone to work on or answer, please email us at info@lvpcug.org. This will help assure that we will try to have someone there with the expertise. The email Subject Line: SIG Help

The meeting formats for the Helping Hands & How-to SIGS are usually one-on-one help as compared to the Novice SIG which is group attendance with questions and answers from the audience during and after the presentations.

Free Online Education Sites
Coursera is an education platform that partners with top universities and organizations worldwide, to offer courses online for anyone to take, for free.

<https://www.coursera.org/> The Khan Academy is probably the most famous educational website out there. It was started in 2006 with the mission to provide “a high quality education to anyone, anywhere.” Meanwhile, the site provides over 3,000 videos on subjects from science to humanities, which have been delivered to millions of people. More than just videos, the site also offers short exercises to help students practice the knowledge they have acquired by watching the video material – all of it for free.

Academic Earth’s vision is to offer “a world-class education for everyone on earth“. The site offers free online classes and indepth online learning through video lectures from university professors. Interestingly, Academic Earth has partnered with the same universities as Coursera and many more. In addition to Princeton, Stanford, and Berkeley, you will find video lectures from UCLA, Harvard, and Yale. Moreover, Academic Earth has partnered with the Khan Academy.

LVPCUG Bytes no back up

Greetings members

I have a sad but true event to tell you about. A young couple, related to me by marriage, were robbed. Of interest to you might be the fact that the mother of a 4 month old had just transferred all her babies photos from her smart phone to their computer and then deleted them from the phone.. Their apartment was broken into. robbed of the television, their computer with all the photos on it and other small items. The point is : You have been reminded again to back up the items you do not want to loose.

LIFE BEFORE THE COMPUTER

- * Memory was something that you lost with age
- * An application was for employment
- * A program was a TV show
- * A cursor used profanity
 - * A keyboard was a piano
 - * A web was a spider's home
 - * A virus was the flu
 - * A CD was a bank account
- * A hard drive was a long trip on the road
- * A mouse pad was where a mouse lived
- * And if you had a 3 1/2 inch floppy
....you just hoped nobody found out
